

## Learning:

### Option 1: Remember

Load training data file (.tdat):

### Option 2: Think

Train on new images:

### Learning Directions:

**(Option 1)** Select a .tdat file with training data saved.

Does not require learning.

**(Option 2)** Select images. Matches in Turk CSVs will automatically be found.

Requires learning; saves a .tdat for faster future use.

Note: All turk CSVs should be placed in ./traindata/
